

ROI

Fisher Auto Parts

wanted to improve driver safety, reduce fuel spend, and improve overall productivity of their fleet. They turned to DriverPoint® Telematics.

“ This tool will motivate safe driving habits in our organization, reduce accidents, reduce maintenance costs, and identify inefficiencies in our fleet. The best thing is that it pays for itself in quantifiable fuel savings. Everything else falls right to the bottom line.”

– Herb Godschalk, Co-President, Fisher Auto Parts, Inc.

Some key findings:

- Fuel economy increased 1.1 MPG in the first three months on DriverPoint, **resulting in potential annualized savings of \$435,102.**
- Vehicles with DriverPoint had a **7.5% lower accident rate** than vehicles without.

Opportunities:

In Fisher's idle review, Donlen found that drivers idled more than 7,400 hours in a 12-month period, **for an estimated spend of \$13,620.**
