

## DonlenDriver® Mobile

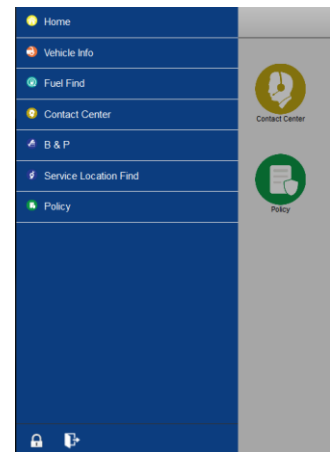

*DonlenDriver Mobile* seamlessly exchanges data in real time with existing platforms, assuring the same functionality you utilize online is available to you when you need it; in the office or on the road.

*Ability to remember username/password*

*Quick access to mobile functionality*

*Navigation menu available throughout application*

*DonlenDriver Mobile* functionality includes:

**Vehicle Info** – Provides an overall snapshot of the driver's current information.

**Find Fuel** – Find fueling stations near your current location or specified address.

**Contact Center** – One touch access to the appropriate queue in the Donlen phone tree.

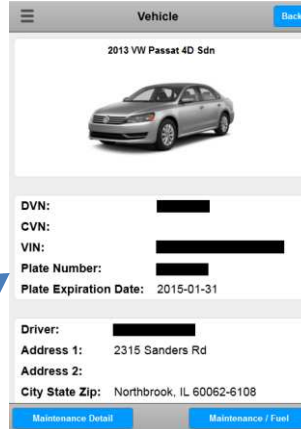

**B&P** – Allows user to view, edit and delete mileage records for their vehicles

**Find Service** – Find service/repair stations near your current location or specified address.

**Policy** – User has access to company policies in one convenient location.

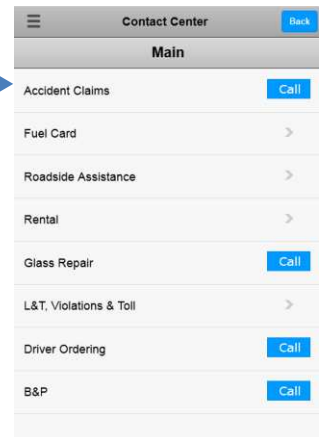

### Vehicle Info

Real-time access to vehicle, fuel, and maintenance information. Simply swipe or click through the informational screens as necessary.

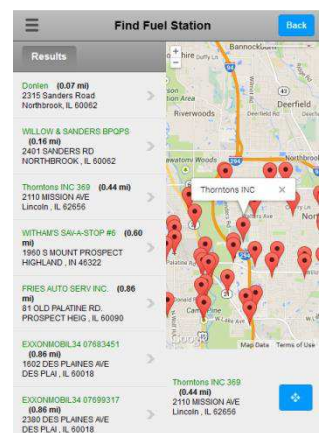

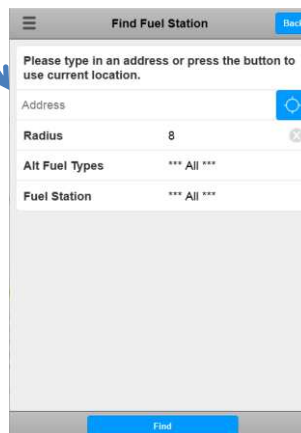

### Contact Center

Easily viewable phone tree to provide quick access to the phone queue. Simply click on the call button for the appropriate department.

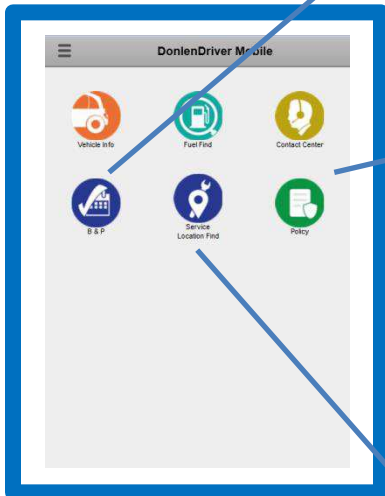

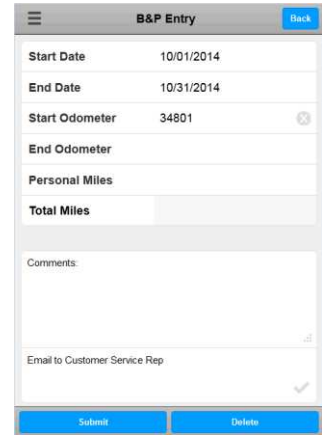

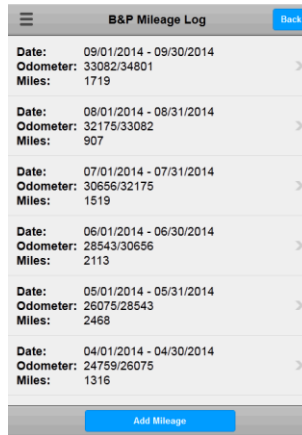

### Find Fuel

Use your current location or enter an address to find fueling stations nearby. Results can be filtered by miles, alternative fuel types, and fuel brands. Directions available with the click of a button.

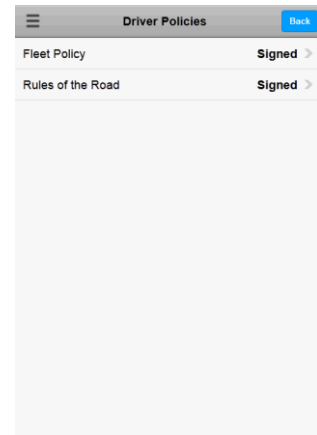

### B&P

Enter B&P mileage quickly with streamlined interface. Simple interface allows you to always enter your information in a timely manner.

### Policy

Easy access to your company's policies. Sign any policy from the convenience of your smart phone.

### Find Service

Use your current location or enter an address to find service stations. Results can be filtered by miles and national account brand. Directions available with the click of a button.
